## APPREHENSION IN WASHINGTON

Chinese Situation is Being  
Constantly Watched

American Consul is Ordered to Keep  
Government in Close Touch  
With It.

## WHITE MEN MUST STAND GUARD

Washington, June 1.—Officers of the Washington government are watching developments in China with undiminished anxiety lest an outbreak suddenly be directed against foreigners. Following a cable report from United States Consul Padlock at Amoy, the state department wired him to keep the department posted on the situation.

Hong Kong, June 1.—Three provinces are now affected by the Chinese revolt and the uprising is growing daily. Conservative estimate of the strength of armed rebels places the number at 50,000. Some reports received indicate the rebels number as high as 75,000. At Pakhoi all white women were ordered away by the British consul. Every white man was pressed into service to stand guard over the consulates.

Morning Report.  
Hong Kong, June 1.—Alarmingly reports continue to reach here from Amoy, telling of depredations by 30,000 armed rebels, operating south of that city. Practically the entire southern portion of Peking province is said to be controlled by rebels.

## DR. DABNEY MUST LEAVE ON ACCOUNT OF HEALTH.

Dr. A. S. Dabney after 20 years' active practice of dentistry in Paducah has closed his office here on account of his health and will go to Carlisle county to remain until next winter. His physician has advised residence in the country as necessary to continued health and he will spend the summer and fall months in Arlington, Ky. In his long practice here Dr. Dabney has built up a large list of friends who will regret to see him leave. He has been identified with the First Christian church prominently and is otherwise well known. His plans for the future are not laid yet, but he will see what effect several months in the country will have. His family will continue to make Paducah their home and Dr. Dabney expects to return to Paducah frequently.

## VOICE OF THE PEOPLE.

To Mr. James P. Smith:  
The city of Paducah is entitled to an administration of its affairs, uninfluenced by a motive to build up a political machine or of rewarding or punishing political workers regardless of their qualifications, and in such a manner as will insure to her citizens the fullest benefits of the prosperous times the country is now enjoying. Believing that your honesty, training, your substantial interest in seeing that the laws of the city are fully enforced; that recommendations for improvements and expenditures would be governed by such judgment as would actuate you in your private business; that your recommendations for appointments would be solely with a view to efficiency to be secured; that while you are a lifelong Republican and a native of the city, you are unencumbered by any factional connections; that as mayor of the city you would be non-partisan in public matters; and believing you to be a man of the highest integrity and qualifications, we request that you become a candidate for the office of mayor of the city of Paducah. We assure you a hearty support.

## MARINE STRIKE.

Paris, June 1.—The maritime strike was the principal subject discussed at a meeting of the council of ministers today, as the situation caused by the refusal of seamen to man vessels in the merchant marine is admittedly serious. Arrangements were made by the ministers in conference the postal and passenger service to the Mediterranean colonies by using the naval ships. Big trans-Atlantic companies are powerless to resume their shipping.

## A MYSTERY.

Cincinnati, June 1.—Mystery still surrounds the death of the man whose charred body was taken from the fire box of the Ryan soap factory yesterday morning. Two men held on suspicion were released and police now believe it was suicide, devoting their energies to identification. The coroner contends he was murdered and will conduct an inquest along that line.

## TEAMSTERS STRIKE.

Wheeling, June 1.—Teamsters struck today, paralyzing the wholesale and retail business and express and transfer companies.

## WEATHER BLAMED FOR CONDITIONS

May Clearings Show Falling  
Off This Year

Local Retail Business Keeps Up Remarkably and There Is No Cause for Slump.

## PROSPECTS ARE ENCOURAGING.

Bank clearings ..... \$480,326  
Same week last year .. 573,581  
Increase ..... 106,742

June is the home stretch month of the first half of the year and the bright prospects of outdistancing 1906 that were evident January 1 and even until the end of the first quarter, bid fair to be clouded by remarkably unseasonable weather. The clearings for May of this year show a decrease from the clearings of May, 1906. The total clearings for May were \$3,266,017, showing a decrease from the corresponding month of last year of \$93,598. There was no economic cause involved in the falling off in business. Industrial conditions generally are in fine shape and the weather is alone responsible for the halt in the onward march of a record-breaking year.

Depression due to the weather promises to have not merely an effect on this period of the year. Should June brighten and make a good showing, it would be sufficient to make the first half of the year equal the same period of 1906. The interdependence of every line of business is shown in the general depression. If the farmers' reports are correct, next fall will feel the effect of this spring's conditions in a way that will leave 1906 in undisputed possession of the high record, until another year than this, takes the lead.

Locally, business is good in spite of conditions, in some lines. Tobacco is still hovering around an extremely high market. The wholesale trade out of this city as indicated by freight shipments at the river and railroads, is good. The banks will be affected naturally in their semi-annual statements by business affairs, but the increase this week shows a better work than was expected.

## PADUCAH HEADS LIST WITH FIVE RECRUITS

Captain W. L. Reed accepted two men last night, recruited by Sergeant Blake at the local office. Frank Nelson, of Waco, Tex., an ex-soldier, and J. B. Babcock, of New Madrid, Mo., were enlisted and both will go to the cavalry. A new recruiting office has been opened in this district, at Harrisburg, Ill., which with the one recently opened at Princeton, makes seven offices. May was a good month in this district for enlistments and Paducah heads the list of offices with five recruits.

## Police Report.

The police during May made 138 arrests as follows:  
Drunk, 21; disorderly conduct, 11; petty larceny, 5; misappropriation of another's money, 1; breach of peace, 33; fugitives from justice, 3; drunk and disorderly, 5; attachment, 1; breach of ordinance, 26; using insulting language, 3; malicious cutting, 2; flourishing pistol, 1; malicious assault, 3; carrying concealed weapons, 2; bootlegging, 1; assault and battery, 1; robbery, 1; rape, 1; housebreaking, 5; detaining woman, 2; renting house to bawdy, 1; grand larceny, 3; violation of Sabbath, 2; obstructing public crossing, 1; arson, 1; incest, 1; total, 138.

## Train in Ballard County.

It rained so hard between La Center and Ballard last night between 7 and 8 o'clock that one could hardly see his hand before him. It resembled a regular winter storm and creeks were flooded in a few minutes after the deluge began. No damage was done but railroad trains had to feel their way through the heavy rain for several miles.

## More Automobiles Purchased.

Another carload of Ford runabout autos arrived today and were sold before they were unloaded from the car. Mr. Dan Fitzpatrick has sold his automobile to Mr. George Weikel, the contractor, and will buy a \$3,000 auto car.

## Railroad Reports.

The railroads report good business both in passenger and freight traffic. The Jamestown exposition and the Confederate Veterans' reunion at Richmond, Va., caused a great increase in passenger traffic, and the increase in freight traffic is due to the spring trade.

## Rossington School.

This afternoon at Rossington trustees of that school district are opening bids for erecting a school house. The estimated cost is \$600.

## Thieves Busy Stealing Tobacco Plants From The Graves County Farmers

Many Miss Large Number  
From Their Beds and Will  
Have Difficulty in Replenishing Their Stock

## OLD CITIZEN IS CONFINED.

Mayfield, Ky., June 1. (Special.)—Tobacco plant thieves are worrying the farmers and reports from all parts of Graves county show that farmers, who are not on the lookout, are being made victims. It is just about time for planting and the plants in the beds may be pulled up by thieves and carried away to be used by them. The reported scarcity of plants makes the thieves all the more eager. Farmers, who have been robbed, will have difficulty in replacing their stolen plants. While J. C. Shelton, who lives east of Mayfield was in the city yesterday about noon, someone stole about 25,000 plants from him, sufficient to set out seven acres. A Wheeler, of Lynville, also reports the loss of plants to set out five acres.

West Kentucky Fair.  
The West Kentucky Fair association has issued its program for its meet to be held July 4, 5 and 6, and some excellent sport is promised. The organization has already one very successful meet to its credit, but expects to surpass itself this time. The association is composed of some of the best known of Mayfield's equestrians.

## EULOGY ADOPTED FOR DR. J. D. SMITH

At the prohibition convention at Louisville the Rev. H. C. Morrison, chairman of the memorial committee, made a report on the death of Dr. J. D. Smith, chairman of the state executive committee, who died December 28 last at his home in Paducah. The resolutions which were adopted by a rising vote said that Dr. Smith was seventy-six years of age at the time of his death, and had done gallant service for the prohibition cause in the state. Colonel T. B. Demaree also paid a tribute to Dr. Smith's worth as chairman of the executive committee.

Running and harness races will be the features of the meet, and \$1,000 in purses will be hung up each day.

James R. Ward III, 87 years old, the oldest living man born in Marshall county, where he has spent his whole life, is exceedingly ill of complications, and is not expected to recover. He was active until stricken with grip. He has two sons and several daughters and grand children. He is the grandfather of E. C. Copeland, of Paducah.

## EXTRA SESSION OF SCHOOL BOARD

May be Held Next Week to  
Elect Teachers if Contracts  
For New Buildings Keep  
Trustees Busy Until Late

## WILL CONSIDER APPLICANTS.

Teachers in the public schools may not be elected at the meeting of the school board next Tuesday night. Routine business and the awarding of the contract for the new school buildings will occupy the board until a reasonably late hour and the election of teachers may be postponed until a called meeting one night next week. At any rate, the election will be held before the teachers begin to leave for the summer. The committee on examination and course of study will make recommendations, but has arranged the report, so that full consideration of the individual teachers may be had in the board meeting. Under this plan, with the extra teachers to be elected, more time may be required than ordinarily, to elect. President List believes in cleaning up the business at one time and may hold the board until the teachers are elected.

## METROPOLIS WILL PLAY IN PADUCAH TOMORROW

Metropolis "Blues" will seek revenge from Holman's Paducah at Wallace park tomorrow afternoon. Dole and Doyle will be in the points for the "Blues" and Brahe and Hays for Paducah. Hopkinsville comes June 9, Princeton June 16, and Powderly, June Labor Day.

## TOBACCO SALE IS RECORD BREAKER

Over Two Thousand Hogs-  
heads Sold by Association  
in City This Year Against  
Forty Last Year

## NO LIKELIHOOD OF STOPPING.

A. N. Vent, local salesman for the Dark Tobacco Growers' association, said this morning that 2,000 hogsheds of tobacco had been sold by the association so far this year, as compared with the first five months of last year when only 40 hogsheds had been sold. And the improved conditions are further illustrated by the fact that the 2,000 hogsheds sold this year, have been sold at an advance of \$2 over the prices of last year. It is reported that the association may stop its sales now, but this report is not credited by the local officials. Increased demand, poor prospects for next year's crops, and an actual scarcity this year, are given as the reasons for the high tobacco market.

## Total Bank Clearings.

New York, June 1.—Total bank clearings as compiled by Bradstreet for the principal cities in the United States for the past week amounted to \$2,157,395,000 as against \$2,336,789,000 in the corresponding week of last year.

In five school months the children have deposited in the Citizens' Savings bank \$218. By giving concerts at the various churches they have put into their school library over a hundred books for reference and reading.

## PRETTY FOUNTAIN FOR YARD OF I. C. HOSPITAL.

What will prove one of the prettiest fountains in Paducah is that under course of construction in the Illinois Central railroad hospital yard. Dr. Murrell, assistant chief surgeon of the road, is building it, and each day spends a short time building the castle which forms the crown of the fountain. He will stock the fountain with gold fish and plant flowers about it when it is finished. It is of rough rock and the work is slow but sure.

## Fire Department.

Sixteen runs were made during May by the fire department. The fire was all small except a fire on Kentucky avenue which entailed a loss of about \$3,500.

## HORSE SHOW AND MATINEE MERGER

Association and Racing Club  
Become One

Next Fall Some Fast Events On Fair  
Ground Track and In Tan-  
bank Arena.

## DIRECTORS SOLVE PROBLEM

Directors of the Horse Show association, at the meeting held yesterday afternoon, decided to merge that organization with the Paducah Matinee club, and to hold a four days' meet the second week in September. A splendid series of races will be arranged for every afternoon, and the horse show features for the night. The races will be held at the fairgrounds and the program will be made up of harness and running events. The horse show features will be held at league park, as heretofore, and the purses will be as liberal as they were last year.

"We feel that we have the solution to the horse show problem," said one of the directors today. "By merging the organization with the Matinee club we shall have an effective, energetic organization to promote our matinee events, an annual fair and races, with the horse show features. "We propose to make the event this fall a great success. We shall 'hang up' liberal purses for the race events, and equally as liberal for the horse show. We believe the plans will meet with popular approval in Paducah and western Kentucky, and that these meets will be looked forward to each year with growing interest.

"We shall endeavor to bring four thousand out of town visitors here for the races, and think the greater proportion of them will stay for the horse show. We shall seek to have entries from all the towns in western Kentucky, Tennessee and southern Illinois so that each locality will be equally interested.

"Of course, we shall need assistance from the general public to make this event a success, and in a few days shall put the matter up to the merchants and business men of Paducah."

## S.S.S. PURIFIES THE BLOOD

There is no other part of our physical system upon which so much depends as upon the blood. The muscles, nerves, bones, sinews, skin, and other portions of the body are sustained, developed and enabled to perform their different duties, because they are supplied with nourishment and healthful properties through the circulation. In various ways the blood becomes contaminated and polluted. A sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, will leave the refuse and waste matter of the body to sour and form uric and other acids, which are absorbed into the blood and Rheumatism, or some itching, disfiguring skin disease is the result. Muddy, sallow complexions, eruptions, spots, pimples, etc., all show that some humor has taken root in the circulation and rendered it sour and unfit for nourishing the body. There is scarcely any disease which cannot be traced to the blood. Often the disease-tainted blood of parents is handed down to children and their lives are a continual battle against disease in some form, usually of a scrofulous nature. Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., are all deep-seated blood troubles, and until this vital fluid is purified they cannot be cured. For all blood diseases S. S. S. is the best remedy ever put upon the market. This great medicine is made of roots, herbs and barks of recognized blood-purifying and building-up properties. It goes down into the circulation and removes all poisons, impurities and humors, supplies the blood with the healthful properties it needs and completely cures blood diseases of every kind. S. S. S. cures Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., because it purifies the blood. Book on the blood and medical advice free.

## NEW YORK LETTER.

New York, June 1.—It now seems an assured fact that John R. Rogers, and Minnie Palmer will be married at an early date, and that at the beginning of next season Minnie Palmer will be numbered among the very prominent American stars, playing in the larger cities in an entirely new version of "My Sweetheart," which in its original form was one of the most successful American comedies, and in which Miss Palmer has been playing in England with unbroken prosperity during the last nine years. Mr. Rogers is to sail for London June 18, and the ceremony will occur very shortly after his arrival. That there is very general faith in Minnie Palmer's drawing power as a theatrical attraction, is shown by the fact, first, that Mr. Rogers, has received several bona fide offers from moneyed men in the amusement business for partnership interests in the undertaking, and, second, that theatre managers in all sections of the country have urgently applied to him to play his star in their houses. The estrangement between Mr. and Mrs. Rogers was brought about chiefly through the efforts of the wife's relatives, who recognized her as a valuable asset, and aspired to the possession of that part of the profits of her various tours which naturally fell to the lot of her husband and manager. These individuals so poisoned the mind of the young wife that she was finally induced to break away from her marital ties, the husband generously giving her every worldly thing he possessed. These relatives are now dead and gone, and Mr. and Mrs. Rogers, who have never really ceased to hold one another in affectionate regard, have been drifting closer and closer together for some months, the reunion having been brought about through letters from Mrs. Rogers that was to the sister of her former husband. The culmination of the life romance of these two will be observed with the utmost delight, not only by their personal friends, but by the public at large, inasmuch as it will serve to re-introduce one of the most charming and widely favored comedies this country has ever produced. The new "My Sweetheart" will be more highly rural in tone than the old play of that name. The thread of the story will not be tampered with, but the scene is to be changed and many new dramatic and comedy incidents will be introduced. The indefatigable Rogers, whose energy and skill have been the making of many star players, such as the late J. K. Hume, Baker and Farren, etc., will find himself once more in his real element in handling the affairs of his accomplished little wife.

The roof garden period is upon us, although the weather man is very much against this form of entertainment. One of these establishments, situated above the New York theater, is already open with a varied and successful entertainment put together by Florenz Ziegfeld, Jr., and in spite of the adverse and unseasonable atmospheric conditions, large audiences are in attendance. Next Monday night Mr. Hammerstein's roof garden, presenting what he calls "elevated vaudeville," will be thrown open to the public in wholly rejuvenated garb, and on the same evening the Aerial Gardens, over the New Amsterdam theater, will become the summer home of George M. Cohan and his company in a musical comedy called "The Honeymooners."

A gentleman enjoying confidential relations with David Belasco said to me a day or two ago: "The success of this manager's attractions for the present season is simply astounding. At the most conservative estimate he will come up to the end of the regular term with a net profit of more than \$500,000. Of course, everybody knows that David Warfield in 'The Music Master' has broken all sorts of records everywhere, drawing from \$20,000 to \$22,000 in cities of the calibre of Washington, D. C., where no such thing was ever heard of, and in no instance failing to obliterate the high-water mark figures of other stars. Blanche Bates in 'The Girl of the Golden West' has been directly upon the heels of Warfield in the matter of box office returns, and at the home theater Frances Starr in 'The Rose of the Rancho' has awakened a degree of interest that compelled the management to add a series of special Thursday matinees in order to accommodate the overflow.

Mr. Belasco will probably close the house for three or four weeks in mid-summer.

There is a persistent but unconfirmed rumor that the Messrs. Klaw & Erlanger have made a stipendous offer to N. C. Goodwin to play in their "advanced vaudeville" for at least a part of next season.

"Brewster's Millions," which is still drawing from \$10,000 to \$12,000 a week at the Hudson theater in New York, without the remotest sign of weakening, is one of the few really great successes in London, where it was recently produced. It will doubtless have a long run in that city.

Mr. Sothern and Miss Marlowe are returning to America from London with an artistic success to their credit, but without financial gain. The last mentioned result is clearly and distinctly due to the miserable little Waldorf theater, where they were assigned to play by the Messrs. Shubert, their managers. Had they known beforehand what they were "up against" they surely would have declined to set foot on British soil.

"The Man of the Hour," with a special company seems to have made a big hit in Chicago. Meanwhile, in New York at the Savoy theater seats are on sale until June 15, and there is a lively possibility that the time may be still further extended.

They say George M. Cohan will devote a part of next season to appearing in the Klaw & Erlanger vaudeville theaters. It seems to be the policy of this firm to engage the very biggest actors in the country for their competitive warfare with the Keith & Proctor forces.

## To Be a Good Salesman

It may have been overlooked that the mere retail salesman may be a good salesman. But he can if he isn't. He can be as much better than the average as the best paid commercial traveling man is better than the cheapest "drummer" types. But he must learn how, after which, through growing tact, knowledge and capacity in his work, the field may open wide to his ambitions.

Be an honest salesman is my advice to all beginners. There is no other road to the broadest, most lasting success. To be honest in the full sense is not as easy as it might appear, either.

You are not honest with your employer if you are in the position of trying to sell his goods without knowing how to do it. You are not honest with your customer if you haven't knowledge of the goods you are handling. Through your ignorance of things which he expects you to know you may swindle him egregiously.

The salesmanship represented in a retail house is the mainspring of the business. Nothing would move in the place were it not for the salesman. The duty of the salesman is to sell goods, primarily. But in selling these goods he is in the position of trying to make a profit for his house, and in doing so to send a pleased customer home who will come back again. That still broader opportunity is open, too, which will bring that customer back, asking that the man who waited on him the last time should attend him again!

What is it which will prompt such an inquiry? asks F. Oliver Quinn. The salesmanship of the salesman—nothing more. What is this salesmanship? Everything that the salesman may learn and feel and know, tempered by personality, judgment, tact and diplomacy. Some pointed "don'ts" may lead to the end of your ambition—for without this ambition you might as well quit:

Don't forget loyalty to your employer.  
Don't get "sore" and take it out of customers.  
Don't be familiar.  
Don't let a customer stand without attention; show him that least that you know he is waiting.  
Don't use slang in addressing customers.  
Don't be content merely with obeying literal rules.  
Don't forget that your salary depends upon your sales.  
Don't growl at taking a short lunch on a busy day.  
Don't talk about bad luck.

One's mouth open won't catch much," said Moody.  
The main object of becoming a salesman is to look for wider opportunities in business. Your salary may not be large, but you are learning. In the old world the salesman must come with lineage and tried honesty of purpose and serve his long apprenticeship to trade almost without compensation. Your opportunity to the extent that you grasp it, is worth more than money. Search for ideas and use them; try them out as you find opportunity. Do these things better than you have been expected to do them. Never mind whether you are watched and rewarded on the moment.

## The Week In Society.

### THE JUNE-TIME.

Oh, there's no breeze like the June breeze that has swept the rosy clover.

That has blown across the meadows and the daisies drifted away. That has played among the trees, that has strayed the woodland over—

Oh, there's no breeze like the June breeze, sweet though all the breezes blow.

There's no sunshine like the sunshine which the month of June discovers.

With its golden gleam of brightness and its tender warmth of tone.

Soft as kiss of little children, fair as bliss of happy lovers—

There's no sunshine like the sunshine which this month has made its own.

Oh, there's no time like the June-time, made of happiness and honey.

Then it's sorrow to the background, and rejoicing to the fore.

All the ways of June are gracious, all her days are sweet and sunny—

Oh, there's no time like the June-time, best and blest forever more.

—Eleanor C. Hull in June Lip-pincott's.

Social Features of Commencement Week.

The coming week is literally "Commencement Week" from Monday night until Saturday morning. No old-time "one-night stands" play the

graduates of today! They and their attendant antelopes, Freshmen, Sophomores and Juniors, are repertoire companies, playing nothing less than a week's engagement. And where one dainty frock of girlish white, simply made, did duty for commencement night and was "best dress" for Sundays and various social occasions until the regular party gown was evolved there must be a change of costume for each night now, and each girl in the week wears many gowns, the units being rainbow-hued.

Commencement week nineteen and seven will be marked by a number of delightful social features. On Monday evening the Freshman reception to the Seniors will take place at the High School auditorium. Tuesday evening the Sophomores and Juniors will receive at the auditorium. Wednesday evening will be "Class Day Exercises" for the class of '07, which will be held at the High School. Thursday evening the commencement exercises will be at the Kentucky theater. Friday evening at 8 o'clock the Alumni banquet and reception to the class of '07 will be given at the Eagle building, Broadway and Sixth street. "This will be exclusively for the members of the alumni and the graduates of 1907 and will be a pleasant social occasion and fitting finale to a week that is "full-up."

### Beyer-Shelton Wedding.

The wedding of Miss Maybelle Beyer and Mr. Howard Edward Shelton will take place on Tuesday evening at 9 o'clock at the German Evangelical church on South Fifth street. The Rev. William E. Bourquin will perform the ceremony. No invitations have been issued in the city.

The bride will be gowned in a charming costume of white net over white tulle and a white dower hat. She will carry a shower bouquet of bride roses and lilies-of-the-valley. The only attendants will be the bridesmaids: Messrs. Joseph Haury, of Louisville, and Frank Ruckliffe, of Clarksville. Messrs. W. E. Kelley, of Paducah, Miss Rosa Kolb will play the wedding music and Mrs. George Katterjohn will sing "O, Promise Me" before the ceremony.

A reception at the home of the bride's mother, Mrs. Georgia Rock Beyer, Monroe street, will follow the ceremony. This will be limited to the family, wedding party and out-of-town guests. The couple will leave that night for Washington City, the Jamestown exposition and other points. They will reside on South Third street on their return.

Out-of-town guests who will be present for the wedding are: Mr. and Mrs. Joseph Haury, of Louisville; Miss Iowa Segars, of Anna, Ill.; and Mr. James Perrine, of Anna, Illinois.

### Five Hundred Club With Mrs. Voris.

Mrs. Victor Voris was hostess to the Five Hundred club this morning, entertaining with her characteristic charm at her pretty home, 1133 Broadway. There were six tables at Five Hundred and the handsome trophies of the games were silver berry spoons presented as club prize and visitors' souvenirs. A beautifully appointed course luncheon was served at twelve o'clock. Besides the regular club tables the following out-of-town guests occupied the extra tables: Mrs. John W. Sykes, of Hope, Ark.; Miss Harriet Raines, of Nashville; Miss Jamie McKenzie, of Lula, Miss.

### Mr. Liebling's Coming a Brilliant Event.

Mr. Emil Liebling, of Chicago, the noted pianist and composer, arrived this morning at 7:45 o'clock and is at the Palmer House. He spent a portion of the morning at the studio of Miss Newell, on North Seventh street, arranging for his recital this evening at the Kentucky theater, where he will appear under the auspices of the Crescendo club.

A very charming feature of Mr. Liebling's visit to Paducah will be his

compliment to the Crescendo club with a lecture on "Modern Piano Study, Its Technique and Interpretation," and interesting piano illustrations. The young ladies have issued invitations to thirty-five guests for 2 o'clock this afternoon at Miss Newell's studio. After the lecture an informal reception will give the club members and their guests an opportunity to meet Mr. Liebling.

During the afternoon two rewards will be given for largest number of hours practice by any student in Miss Newell's class since February 20. Among special students the largest number being 215 hours, with a second of 199.40. Among school students 115.55. Those receiving the rewards are Miss Rosalie Warfield, school student, and Miss Maude Calmes, special student.

The entire club is enthusiastic over its success in bringing so brilliant an artist as Mr. Liebling to appear in Paducah, the only regret being that a date other than Saturday evening could not be arranged since many genuine music lovers will be unable to enjoy what is the acknowledged musical event of even many seasons in Paducah. The audience promises to be a brilliant one, however, as the advance sale of orchestra seats was especially good. It is probable that all the boxes will be occupied, three being already taken. Some of the officers and members of the Matinee Musical club will have one box as follows: Mrs. Hubbard S. Wells, president; Mrs. Hal S. Corbett, vice-president; Mrs. James Wellie, treasurer; Miss Virginia Newell, recording secretary, and Miss Lula Reed. In the adjoining box will be: Mr. and Mrs. David M. Flournoy, the latter corresponding secretary of the Matinee Musical club, and Dr. and Mrs. David G. Murrell. One of the boxes across from these have been taken by: Mr. and Mrs. Cook Hubbard, Mrs. Edmund M. Post, Mrs. Mildred Davis, Mrs. Elbridge Palmer and Miss Adline Morton.

### Kalosopie Club's Informal Evening.

The girls of the Kalosopie club were charmingly entertained on Friday evening at the home of Mr. and Mrs. Frank L. Scott on North Ninth street. It was an informal reception and musical evening and each girl invited one guest. The house was prettily decorated with flowers and plants and the club colors, green and gold, were carried out as far as possible in the decorations, the color-motif of the delightful refreshments and in the pretty souvenirs programs. An attractive musical and literary program was featured. Miss Elizabeth Sinnott, the club president, made a charming little welcome address and gave a resume of the year's work and outlined future plans.

Messrs. Charles Cox and S. Y. Clay have most admirably the scene between Brutus and Cassius from "Julius Caesar." Miss Anna Bradshaw, Messrs. Richard Scott and Edwin Paxton rendered taking solos. The accompanists were Misses Lula Reed and Mary Holling. Dr. I. B. Howell made a delightful little impromptu talk on club work and its developing effects.

### Charming Afternoon Card Party.

One of the most attractive card parties of the season was given by Mrs. Margaret P. Emery and her sister, Miss Mary Ferriman, on Thursday afternoon. The handsome Emery home at Jefferson and Sixth streets was a charming reflection of the springtime. The reception hall, parlor and library, where the tables were arranged, were decorated throughout in a profusion of crimson and white roses, which lent themselves with graceful effect to the adornment. The chandeliers were intertwined with branches of the roses and the mantels were banked with them, while great clusters were artistically arranged in vases and pretty bowls. An effective touch, but unintentional, was added by the mantle draperies, table covers, center pieces and dillies, all being embroidered in red and white color and rose motif very prettily. The delightfully planned two-course luncheon carried out an attractive red, white and green scheme in the salad course, the frozen punch and the angel food dessert with strawberries and cream.

There were twelve tables at each and the score was kept by Mrs. Anne

Coleman, Mrs. Charles Emery, Miss Alma Kopf and Miss Marjorie Scott. The first prize, a pretty hand-embroidered shirtwaist, was won by Mrs. J. M. Worton. The lone-hand prize, an imported Japanese jewel case, was taken by Mrs. William Marble and gracefully presented to Miss Jamie McKenzie, of Lula, Miss., the charming guest of Miss Myrtle Decker. The consolation prize, a handsome bottle of perfume in a case, went to Mrs. John Oehlschlaeger.

The guests present were: Mesdames Frank Rieke, Little Boyd, Clara Burnett, Will Gilbert, Kate Wilson, Allen Ashcraft, Luke Russell, Thos. Leach, William Hughes, William Bradshaw, Jr., A. R. Covers were laid for twelve.

Miss Ada Sexton, of Lula, and Mr. Harry D. Perkins, of Grand Rivers, will be married on Sunday afternoon at 2:30 o'clock at the residence of D. A. Sexton, the father of the bride. The Rev. Reuben Marshall will perform the ceremony. The couple is quite young, the bride being 18 and the groom 22. They are popular young people in their respective homes. The bridegroom is a prominent young business man of Grand Rivers. He is a nephew of Mrs. William Pressnell of this city, and is well known in Paducah.

### Silver Wedding Anniversary.

## BIG PURCHASES FOR JUNE SELLING

"The store for thrifty people"

Same goods here as in other stores, but here for less money.

Great quantities of merchandise will be arriving all through June. This store has not arrived at its present stage of usefulness by chance. There is no luck or speculation about this business. It's not the result of fortunate circumstances, but downright honest hard work—work wherein our customers' interest has been and is being carefully studied at every corner and turn in the buying, in the selling and in the prevention of store extravagance. Store extravagance necessarily means high prices and large profits and must be paid for by the customers. There is none of it here. Our way of doing business means a big saving for us and for you. We are not that kind of merchant who expect your trade because of friendship, kinship, acquaintanceship or good fellowship; we do not expect your patronage as a right. All that sort of thing is too ancient for us. We ask you here because it pays to buy in this big store. Come, let our merchandise and prices speak for themselves. No warm-weather stagnation here. Great money-saving opportunities will be offered every day through June.

### June Millinery in Full Bloom.

Charming new creations just received, inspirations taken from New York and Paris models, great values linked with unquestionable styles. Almost every day here you see something new, something different and more beautiful than ever before. No other store ever tries to equal them because they know they cannot at our prices. Nothing else but extraordinary values in the very latest and most wanted styles could have given Harbour Millinery such prestige. Next

week is a good time to test this broad claim for Harbour Hats.

### WOMEN'S WALKING SKIRTS.

### WOMEN'S WAISTS.

We have never before had such values in dainty white Waists as

this season. Many charming styles. When you note the materials and trimmings and count up the cost you will be more surprised that we are not selling them much higher. A buying chance throw these Waists in our way at concession prices, as we couldn't have such stylish, dainty affairs at our range of prices. Linens, Lawns, Lace Net and Silks \$1 to \$5 each.

### A Sale of China and Japanese Mattings.

We placed orders a year in advance; that's why in spite of the ad-

vance in prices, that we own these mattings to sell at 12 1/2c, 15c, 17 1/2c, 19 1/2c and 21c a yard. If you appreciate floor coolness, cleanliness and beauty, call to see these mattings while they can be bought at these little prices.

"Kindness is the sign of divine kinship."

## COMMENCEMENT.

During the next fortnight thousands of young men and women will be graduated from our institutions of learning, equipped, as they feel, for some great mission, even as did that young man, Moses, 3,500 years ago, when he undertook the emancipation of Israel by killing the first Egyptian he observed abusing his kinsman. Moses, we believe, was banished for 40 years in the wilderness, completing his education by tending sheep, before he was allowed to renew his great work of deliverance. Moses was a man of destiny, all right, but his period of probation did not fit him in the great cities of Egypt with their libraries and schools, and society and pleasures. It is difficult for the finite mind, perhaps, to grasp the relation between herding sheep and writing the foundation of the civil law for all ages; but Moses learned some things in the desert of Sinai they did not teach in the high school at Thebes. Ah, well! We all have had our dreams. We still dream. Fly the darkened soul that has no star burning for it in the sky of hope. But we let that star guide us now. We got a hard fall once trying to guide the star.

It's a nerve-racking business, this—fading out just what great mission in life we are called to perform; and the task is made no easier by the sort of copy we have set before us in the school room—"samples" of greatness, as it were, stinging strips torn off the lives of famous men, for all the world like the samples of silk in the bolt sent home for mother's selection. Anecdotal biographies of George Washington, Oliver Goldsmith, Edgar Allan Poe, William Shakespeare, et al., are excellent reading for a winter's night, but they are extraordinarily discouraging just at one crucial period in life. Somehow in our youth we acquired the habit of studying genius from a psychopathic point of view. It seemed to us like some rare disease with well defined symptoms, and we caught ourselves indulging a propensity for introspection, vainly watching for the development of some telltale idiosyncrasy that would indicate beyond doubt the bent of our genius.

Newton, we learned, discovered the law of gravitation by watching an apple fall. The steam engine was evolved from the principle of the teakettle. Great things befall by chance. Great men were lucky. We had seen worthless tramps engaged in an occupation not apparently different from Newton's when he established his great scientific law; but the tramps accomplished nothing noteworthy. We had ourselves emulated Newton's example to no purpose. We believe at that time we were smoking a pipe, having acquired the practice in an effort to cultivate the artistic temperament. At another period, moved by the divine passion to pour forth our soul in meter, and hoping thus to propitiate the muse, we repressed on those wanton passions, which romance has ascribed to the literary cult.

As we watched the apple, a whole orchard of them, a suspicious agri-

culturalist watched us. The same fate befell our ardent observation of an industrious hen, encountered in the course of a hungry camping trip. The sociological character of all our early experiences and researches might have indicated to us a journalistic career; but, alas, there is not a genius among us. The paradoxical nature of life, itself, might have set us upon a profitable trend of thought at a later day; but just at that time it was only confusing.

We had not then learned that a poet need not be a drunkard; that a playwright need not be licentious; that a man does not have to be an idiot to be inspired; that Newton had done something before he watched the apple; and Franklin was not so frivolous in his pursuits as the isolated episode of the kite flying might indicate.

We wonder why the schools everywhere don't drop some of the misleading examples for the young and guide them back to the old testament to study the writings of the only biographer of human men, who ever told the truth; perhaps who ever knew the truth to tell it.

Consider the youth, Joseph, who wore a coat of many colors and dreamed a dream of self-exaltation, which he related to his brethren, and was afterward sold into Egypt for being presumptuous. Consider the years of hard training to fit this spoiled boy to be the preserver of the civilized world. Joseph had his dream, and it came true; but had Joseph foreseen the years of separation from home and kindred, of slavery and imprisonment through which he must pass to the realization of that dream, he would have been more modest in its early interpretation.

It's a long, hard way to the end of the rainbow.

Aspiration calls us through a maze of years and tears.

The higher the hope, the steeper the ascent.

The dream of Pharaoh's butler, we are told, required only three days for fulfillment. That is the difference between the dream of a butler and the dream of a Joseph. Pharaoh called the former to be a servant, he called Joseph to be a ruler.

Full of encouragement for the young must be the study of this young man's biography; for these graduates must all pass through a period of slavery—the bondage of irksome duty—yes, and perhaps, under the brutal lash of stern necessity. They are to be thrust into prison; for what is prison but limit of opportunity?

It's the way we make the best of the situation that shortens our term of servitude. It's contentment that forever bars the way of egress. In the absorption of interpreting the dreams of others, don't forget your own dream; and beyond and above all, don't neglect to bespeak a good word from the butler.

Then when the summons comes, dress and go hastily; for Pharaoh is an opportunity that will not wait.

At Washington they regard Cairo as a suburb of Paducah, and will consider the president's stop there a visit to Kentucky.

"O! What is so rare as a day in June?" sang the poet. It'll be appreciated. We have been taking them raw for a month.

Some men are so deft fingered they can roll a cigarette with one hand, and yet never advance beyond that accomplishment.

Some men's tobacco bills would tire the family washing done.

With the prospect of good races next fall in addition to the horse show the Purchase re-establishes her position in Kentucky.

"ART THOU FOR US, OR FOR OUR ADVERSARIES?"

The friends of Hon. Augustus E. Wilson, whose acceptance by all elements of the party in Louisville, his home, makes him the logical candidate for governor on the Republican ticket, may well inquire the meaning of the movement under the surface to secure untrained delegations from counties in the First congressional district. Wilson is the strong candidate in the First district. A few months ago it was anybody's race, but the others stood off, while Mr. Wilson made many overtures. Louisville chose him from among the receptive, and then western Kentucky accepted him. Naturally his friends wish him to receive the instructions of the delegates. Just as naturally and logically all the friends of fair play wish the delegation to be instructed for somebody.

As we said in reference to our own county a few days ago, the only way the delegation to the state convention can convey the will of their constituency into the convention, is to carry their instructions with them. It is no shibboleth of Republicanism to be for Mr. Wilson. There are lots of other good men in the party. Any Republican has a right to be for any candidate that suits him, and we shall not abuse him for his choice. All we ask is that he be for that man, go into the convention and seek to get instructions for him, and let the convention choose which candidate it is for. Then let that candidate for the nomination, who is the choice of the most Republicans at the convention, be endorsed.

News reports indicate that somebody is trying to trick the friends of all the candidates into sending untrained delegates. That somebody should come out in the open and tell the rank and file of the party what he is after.

HOT AIR TREATMENT

Has Proven Its Worth in the Treatment of All Diseases.

I am using, in connection with the Osteopathic treatment, the Dry Hot Air treatment, and the great successes achieved with it demonstrate its efficacy.

In one form or another heat has been employed in treatment of disease from the earliest times and in every part of the world, but its use has become more general in later years than ever before—simply because its application and uses have become better known.

We have a better understanding of the physiological laws upon which the treatment is based, and have greatly improved the mechanical apparatus employed until now it is one of the most useful means at our disposal for the treatment of disease.

The treatment is stimulating to the whole system, every organ and function, and when used with the Osteopathic treatment forms the most rational cure in all sciences.

Especially are the treatments indicated in all diseases incident to the season, spring, tired, worn out and run down conditions, malaria, stomach, liver and bowels, and in asthma, rheumatism, and nervous conditions, headaches, lumbago and neuralgia.

I should be pleased to have you consult me at any time, and tell you just what Osteopathy will do in any specific case. It has done much for Paducah people you know well, to whom I shall gladly refer you, at any time.

## Real Estate Profits

Money Made in Paducah Property

LOW PRICED LOTS ON THE CITY LIMITS SHOW THE LARGEST PER CENT PROFIT OF ANY REAL ESTATE INVESTMENTS. SUBURBAN LOTS BECOME RESIDENCE LOTS JUST AS CERTAIN AS THE LITTLE GREEN APPLE OF THE SPRING BECOMES THE BIG RED APPLE HANGING IN THE TREE IN THE FALL—THIS HAPPENS WITH CERTAINTY UNLESS THE TREE DIES OR THE CITY STOPS GROWING—BOTH VERY UNLIKELY. THEREFORE IS THE REASON THAT ALL REGULAR REAL ESTATE TRADERS DEAL IN SUBURBAN LOTS AND OWN VERY LITTLE OR NO HIGH-PRICED PROPERTY. FOUNTAIN AVENUE LOTS LESS THAN 10 YEARS AGO SOLD FOR \$450. THAT HAVE CHANGED HANDS LATELY AT \$1,500. SOMETHING LIKE FIVE YEARS AGO WEST JEFFERSON LOTS SOLD FOR \$350—THE LAST SALE WAS \$1,000 FOR A 50-FOOT LOT. FIGURE THE PER CENT FOR YOURSELF. ALL SUBURBAN LOTS HAVE SHOWN BIG PROFITS BUT THESE ARE THE LEADERS. YOU SAY THE ABOVE IS ANCIENT HISTORY AND WILL NEVER OCCUR AGAIN—NOT SO. HISTORY REPEATS ITSELF, AND JUST AS SOON AS SOME DEALER PUTS ANOTHER ADDITION ON THE MARKET DIRECTLY IN THE PATH OF THE BEST CLASS OF IMPROVEMENTS AND BE AS LIBERAL WITH WIDE STREETS, WIDE SIDEWALKS, LARGER ALLEYS, BIG LOTS AND PARK FOREST TREES, AND ASKS THE SAME LOW PRICE OF SAY \$300 PER LOT, THEN THESE SAME PROFITS WILL BE DUPLICATED. WHO KNOWS WHAT ADVANCEMENT IS IN STORE FOR PADUCAH WITHIN THE NEXT TEN YEARS? DON'T GET LEFT AGAIN. BUY ONE OF THESE LOTS, DON'T BE AFRAID TO RET \$300 ON THE CITY OF PADUCAH. GET THERE FIRST IS THE WHOLE SUM OF THE EXPERIENCE OF THE WRITER. AFTER 20 YEARS TRADING IN PADUCAH REAL ESTATE, THESE SUBURBAN LOTS HAVE TO BE OWNED BY SOMEBODY. BE ONE OF THE OWNERS AND SHARE THE PROSPERITY OF PADUCAH. THINK THIS OVER AND YOU WILL FIND IT ALL RIGHT, OR ASK SOME ONE'S OPINION WHO YOU THINK KNOWS. DON'T GET LEFT AGAIN.

Special Sale of 100-Piece German China Dinner Sets, Regular Price \$22.

Now Only \$15.98

Last October we placed an import order for some very handsome 100-piece German China Dinner Sets, to be delivered this coming fall, but through a mistake on the part of the foreign manufacturers they were shipped immediately and just came in a day or two ago. Arriving at this time, such a shipment overstocks us a good deal and, when the circumstances were explained, the manufacturer agreed to give us a substantial price reduction of which we are going to give you the benefit. We bought them to sell for \$22, but until we get the stock down to normal again the price will be only \$15.98.

These sets come in four different floral decorations, lined with gold, and all of them dainty as can be. They are first quality, medium weight German China, perfectly glazed—different from the kind you could ordinarily buy for the same money because the decorations are under the glaze and won't wash off. Remember, the price is \$15.98 only.

## The Commonwealth Paid in Full \$100 Policy in Force Six Months

No matter when death occurs, the COMMONWEALTH pays its Industrial Policies PROMPTLY and IN FULL. Other companies pay only one-half if insured dies within one year from date of policy. Read what Mr. Varble says:

Louisville, Ky.

Gentlemen: I received today your check for One Hundred Dollars (\$100.00) in settlement of the claim which I had against your Company under Policy No. 27078 issued on the life of my wife, Mattie E. Varble, who died May 23rd, and I assure you that I appreciate very much your prompt and courteous treatment, and heartily recommend to all those desiring Industrial Insurance to take it to the COMMONWEALTH, as their policies are, in every way, the most liberal, especially in regard to placing their policies in FULL IMMEDIATE BENEFIT where all policies issued by other Industrial Companies are only in one half immediate benefit, and although my wife was only insured in November, I received the full amount of the policy.

Respectfully yours,  
LEONARD N. VARBLE, Beneficiary.

ALL INDUSTRIAL POLICIES FULLY PAID UP AT AGE 75.

### Pipe Opium.

Very few seem to understand that the Chinese smoking opium, which is ruled in India and China, is an entirely different article from the opium of the drug market. That comes almost wholly from Turkey, though there is a little from Persia, too. Smyrna is the center of the trade. The duty on Turkish opium is only \$1 a pound, while that on the opium of China is \$6 a pound. That would be sufficient to prohibit much importation. Besides, the smoking variety is of very inferior strength, yielding not more than 1 or 2 per cent. of morphine, while crude opium for drug purposes is not allowed to be imported unless it shows at least 9 per cent. of morphine when tested.

"I can say this, anyhow," averred the unsuccessful statesman: "I went into politics with clear convictions." "I see," murmured the other man. "And you couldn't find a buyer for 'em." Chicago Tribune.

## FREAK STRIKES IN CITY OF CHICAGO

Why Some Workmen and  
Won't Go Out

Report Gets Up a List of Odd Labor  
Situations and Causes for  
Discontent.

### ALL IN THE WINDY CITY.

Chicago, June 1.—Any widespread labor union wishing to be strictly up to date should start a "freak" strike. A canvass yesterday showed no less than six "wage struggles" of this class in progress in Chicago. The situation means idleness for almost 900 men and six Chinese puzzles for employers and labor leaders.

Today "freak strike" No. 7 probably will be called. It will be a general walkout at the new plant being erected for Montgomery Ward & Co. at Chicago avenue and the river. More than 2,500 men will lay down their tools because nobody can determine which of the twelve unions has the "right" to cut 450,000 holes, more or less, in the foundation and walls of the building.

Some of the Strike Puzzles.  
The hole "issue" is a fair sample of causes which are making "freak" strikes epidemic. Here are some other labor puzzles that are responsible for existing industrial disturbances:

Who should build a door in a house, a carpenter or a woodworker? Is the setting of a screw in a belt shaft the work of a machinist or an elevator constructor?

Has a marble setter the right to spread cement on the back of a slab of marble?

If a non-union waiter is carrying beer in a summer garden, should a union painter work in his place? Is a man who runs a "donkey" engine an engineer or a fireman?

Doors Chase Eight Walkouts.  
The controversy over the making of doors has resulted in eight small strikes in this city. Probably there will be as many more ordered this week, since carpenters and woodworkers have now determined to "settle" speedily the door question, which has been a source of disturbances four years.

Among the buildings on which work is being delayed because of the "freak" door strike is the Illinois Athletic club. Not only were the carpenters called out, but the union issued an order, forbidding any member to work on material manufactured by the firm which furnished the doors in dispute. This affected several hundred men.

So bitter has this fight grown in the last few days that one official of the woodworkers' union, it is said, has obtained the protection of detectives from Central police station to guard against a possible attack by members of the rival union.

Two Men and Boy Involved.  
The strike over the "screw" matter is in progress at the Commercial National bank building, Adams and Clark streets. It involves only two men and a boy, but the contractors have found it impossible to install any elevator machinery until the problem is "settled." A peculiar feature of this strike is the fact that two sets of employers are taking sides with the respective unions and urging them to "stand pat."

In the same building several thousand marble slabs are lying colored with dust because the Associated Building Trades cannot decide which of two unions should apply the cement necessary to fix them in place. The cement workers' union says no workman may handle cement except members of that organization. Marble setters assert they should be the only ones allowed to touch marble after it reaches a building.

Engineer or Fireman—Which?  
An unusually puzzling strike, which has been in progress for several months, is that called by the firemen in the yards of the National

### SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now  
Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need he bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Two sizes, 50 cents and \$1.00. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. W. B. McPherson, Special Agent.

Brick company. There are a dozen or more small engines in the brick yards, used to furnish power for fans. To run one of these engines requires the services of only one man. He shovels coal, and at the same time manipulates the levers and gauges. Nobody, not even the company, can tell whether he is a fireman or an engineer.

The only "freak" strike called recently which did not "take effect" was one which the federation of labor practically ordered a week ago against a south side amusement park. Theoretically no union men are working at the place, which is on the "unfair" list. As a matter of fact several hundred of them are employed there.

The federation took up the grievance of the waiters, who showed that union men of this occupation were being refused work at the park. Union painters, carpenters, electricians, teamsters and laborers were satisfied with their wages and hours, but were advised to quit. They accepted the advice, but returned to work next morning. The waiters, however, any they are satisfied.

## Nicknames of Royalty Interest Many Not Intimate With History

There is scarcely a member of our royal family who has not got at least one nickname, says London Tit-Bits, while some have answered to many. It is said that even King Edward himself is often referred to by the nickname of Edrex, very obviously derived from the familiar "Edward Rex." As a boy and a young man, however, his majesty was always called by the pet name of Bertie, and for a long time prior to his accession to the throne he was generally called "the Gaiety" by the princes and princesses, and it is hardly likely that he raised any objection, inasmuch as he himself has liberally bestowed nicknames upon his most intimate friends.

Probably the German emperor possesses more nicknames than any other living monarch, though he may not be aware of the fact; indeed, his various feats and accomplishments suggest so many new nicknames that it would be difficult to keep count of them. Gendola Willie, Ajax, Frederick the Greatest and the Captain are a few of the nicknames most frequently applied to him, the latter having been suggested by the famous cartoon in Punch, which represented his majesty as the captain of a ship watching Bismarck, the pilot,

### A Daffy Wife.

Mr. Canning—Did you spend all that money I gave you this morning?  
Mrs. Canning—Yes, my dear. If I'd spent only part of it I would have had to wait at the bargain counter for my change, and then I wouldn't have been home in time for dinner.

The Smiths had invited the minister to dinner. As the last course was reached little Willie, who had been closely watching the guest, almost confidentially through the meal, looked over at him once more and said:

"You haven't changed a bit since you started eating, have you, Mr. Curtis?"

"Why, no," laughed the minister. "Why do you ask that question?"  
"Because," blurted Willie, confused by the pair of eyes focused on him, "because I heard pa tell ma you'd make a big hog of yourself as soon as you got your eye on the corned beef and cabbage." —Bohemian.

## The King of Diamonds

BY LOUIS TRACY

Author of "The Wings of the Morning," "The Pillar of Light," etc.

ILLUSTRATED BY BERGER

This, like many of the best stories you have ever read, begins with a boy. Philip Anson's mother, to whom he is devoted, dies in poverty leaving her boy of fifteen alone in the world.

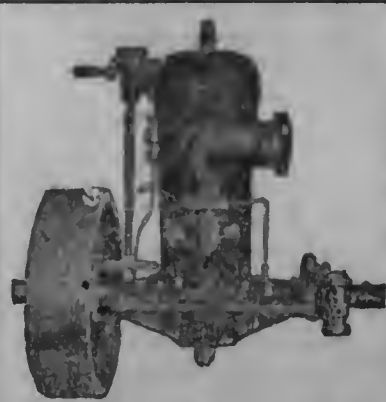

Just when he has determined to commit suicide he comes into the possession of diamonds of fabulous value in such a strange manner that they seem to be sent from heaven to the gift of his mother.

To secure his vast wealth in spite of enemies and the persecution of the law is a problem that would tax older and wiser heads.

But the stars in their courses fought for Philip. His adventures in his new position make a story of extreme fascination—even if a high born little lady had not appeared to him in his poverty to fill his soul with a vision which he carried until it became a reality.

We will not ask you to read this story. We are going to publish the first chapter in a few days. If you can refrain from reading it or stop when you have begun you will be a greater wonder than Philip's fortune

**CHAPTER XXXVII.**  
**S**PENCER, whose recovery during the last few days had been as rapid as the first development of his indisposition, had just changed for dinner and was lighting a "cigarette d'appetit" when, without waiting to be announced, the Vicomte de Bergillac entered the room. Spencer, with lightning-like intuition, knew that his time was come.

"Off with your coat, man, and get your code books out. I am going to give you the most sensational story which has ever appeared in my paper," he exclaimed. "Only remember this—it must appear tomorrow morning. I am arranging for the French papers to have it. Yours shall be the only English journal. Glance through these sheets. They contain the story of 'Taffire Poynton.'"

Spencer was master of the gist of the thing in a very few moments. His eyes were bright with excitement.

"Who guarantees this?" he asked quickly.

"My uncle has signed it," Henri de Bergillac answered, "and at the bottom of the page there you will see a still more distinguished signature. You understand 'Taffire Poynton' now? It is very simple. That English boy actually witnessed a meeting between the czar and the emperor and turns up in Paris, with a loose sheet of a treaty between the two relative to an attack upon England. Our people got hold of him at the Cafe Montmartre, and we have hidden him away ever since. Our friends, the Germans, who seemed to have had some suspicions about him, have filled the city with spies, but from the first we have kept them off the scent. We had a little difficulty in convincing our friends, your country people, but we managed to borrow a few papers from the German ambassador while he was staying at a country house in England, which were sufficient."

Spencer was already writing. His coat lay on the floor where he had thrown it.

"Don't go for a moment, de Bergillac," he said. "I want to ask you a few things. I can talk and code at the same time. What about Miss Poynton?"

"Well, we had to take care of her, too," de Bergillac said. "Of course all her inquiries over here would have led to nothing, but they knew about her at the English embassy, so we walked her off from the Cafe Montmartre one night and took her to a friend of mine, the Marquise de St. Ethel. We told her a little of the truth and a little, I'm afraid, which was an exaggeration. Anyhow we kept her quiet, and we got her to go to England for us with Touquet. They had a very narrow shave down at Ranton, by the bye."

"After this," Spencer said, with a smile, "the secret service people proper will have to look to their laurels. It is a triumph for the nineteers."

The vicomte twirled his tiny black mustache.

"Yes," he said, "we have justified ourselves. It has cost us something, though."

"M. Louis?"

Spencer stopped writing.

"It was an affair of a million francs," the vicomte said. "I hope he has got the money."

Spencer resumed his work.

"The Baron a traitor?" he exclaimed. "Where is he?"

"In England. We are not vindictive. If the Germans paid him a million francs they got nothing for it. He has been watched from the first. We knew of it the moment he came to terms with them. He only knows bare facts. Nothing beyond. He is going to Brazil, I think. We shall not interfere."

"Tell me why," Spencer said, "you were so down on all of us who joined in the search for the Poyntons?"

"We could not afford to run any risks of your discovering a clow," de Bergillac answered, "because you in your turn were closely watched by German spies, hoping to discover them through you. That is why we had to strike hard at all of you who interfered. I was sorry for little Flossie, but she knew the risk she ran. We had to stop you, induce Duncombe to leave Paris and knock on the head a fool of an English detective for fear he might discover anything. M. Pellum was getting into danger, but of course it was the marquis who started insolently into the girl's face. Phyllis only laughed."

"One is usually considered the ideal number—in our country," she remarked demurely.

"But the one?" the marquis continued. "He would not be one of these cold, heavy countenances of yours, no? You have learned better perhaps over here?"

"I have not had very much opportunity over here, have I, to mend my ideals?" she asked. "I think the only two Frenchmen I have met are the marquis and that insolent young man with the green tie, the Vicomte de Bergillac, wasn't it?"

The marquis watched her charge closely.

"Well," she said, "he is 'comme il faut,' is he not? You find him more elegant, more chic, than your Englishmen, eh?"

Phyllis shook her head regretfully.

"He is twenty-three," the marquis

declared.

Phyllis laughed softly.

"Well," she said, "I do not think that I shall amend my ideals for the sake of the Vicomte de Bergillac."

"Tell me child," she said. "You mean, then, that of the two-year English Sir George Duncombe and Henri that you would prefer Sir George?"

Phyllis looked at her with twinkling eyes.

"You would really like to know?" she asked.

"Yes."

"Sir George Duncombe—intuitively. The marquis seemed to have recovered her good spirits."

"One, little one," she said, "you love color in the house. I will take you for a drive."

Andrew, conscious that he was being followed, sat down outside a cafe on a way home and made his guide leave him for a little time. Instantly there was the soft rustle of feminine skirts by his side, and a woman seated herself on the next chair.

"Monseigneur has not been up to the Cafe Montmartre lately."

Pellum turned his head. It was the young lady from Vienna.

"No," he answered. "I have not been there since I had the pleasure of seeing monseigneur."

"Monseigneur has discovered all that he wanted to know?"

He nodded a little wearily.

"Yes, I think so."

She drew her chair quite close to his. The smile of her turtan but almost brushed his cheek, and the perfume of the violets at her bosom was strong in his nostrils.

# Stomach Muscles in Old Age

People should be more and more careful, as age advances, to see that their bowels move regularly. In this way they can keep themselves in good health and prolong life. The bowels are not as active in middle-life and old age as they are in youth, and with the majority there is a tendency to constipation of a chronic and obstinate nature.

To ward off the possibility of serious diseases use Dr. Caldwell's Syrup Pepsin, the great herb laxative compound. It is especially suited to the use of elderly people because it is prompt but gentle in action, and does its work without griping or weakness, as is the case with salts, purgative waters and cathartic tablets. These should not be used by children, women, old folks or weak people because they are too violent to act and generally cause further trouble. The results are temporary, as reaction sets in and the bowels are bound up more than ever.

A remedy like Dr. Caldwell's Syrup Pepsin is very gentle in action and yet thoroughly effective, and as it contains no toxic ingredients, it strengthens the system instead of weakening it. The results are permanent because gradual, and many can in a short time do away with the use of all laxatives. It will cure the most chronic constipation, dyspepsia, liver trouble, biliousness, flatulency, sour stomach, weak stomach, bloating, drowsiness after eating and such other stomach, liver and bowel troubles.

To prove how effective it is in serious cases, the experience of Mr. Armstrong, of Decatur, Ill., can be cited. He suffered from a run-down condition during the Civil War which caused a partial paralysis of the bowels and he had never since been able to use a laxative. He says he never found anything so effective, or which worked so near nature, as Dr. Caldwell's Syrup Pepsin. Try it and you will say the same. The price is 50 cents or a bottle at any druggist.

**FREE TEST**—These wishing to try Dr. Caldwell's Syrup Pepsin before buying, may obtain a free trial bottle by enclosing this advertisement in a letter to the company. This offer is to prove that the remedy will do us we claim, and is only open to those who have taken the time to read the directions. The PUBLIC VERDICT: "No Laxative So Good and Sure as DR. CALDWELL'S SYRUP PEP SIN." This product bears patent guarantee No. 11, Washington, D. C.

# LARGE CROWD

**ATTENDS OPEN MEETING BY CARPENTERS AT COURT HOUSE.**

Unions and the Present Strike Discussed From Standpoint of Strikers.

Fully four hundred people attended the mass meeting held last night at the court house under the auspices of the Carpenters' union.

President Roy Morgan, of the local Carpenters' union, spoke first, and was followed by Mr. J. W. Adams of St. Louis, general organizer of the Carpenters' union. Mr. Morgan's talk was short, a clear statement of what the carpenters asked and why they asked it.

County Attorney Alben Barkley made a short talk.

Mr. J. D. Wood, of Central City, president of the State Federation of Labor, followed Attorney Barkley, making an eloquent speech on unionism in general.

Mr. H. L. Cook, of Cincinnati, general organizer of the Carpenters' union, explained the necessity of increased wages to carpenters.

The Rev. Peter Fields, pastor of the Third Street Methodist church, concluded the speaking with a short address in which he declared himself in sympathy with unionism and wishing the union carpenters success in their efforts.

Little Ethel—"Mamma, don't people ever get punished for telling the truth?"

Mamma—"No, dear. Why do you ask?"

Little Ethel—"Cause I just tooked the last three tarts in the pantry and I thought I'd better tell you."—Cleveland Plain Dealer.

"How did the wedding go off to day?" "Splendid. There wasn't a hitch." "I'm glad to hear that. Did the new-made bride look very happy?" "No, I said the wedding came off without a hitch. The bridegroom failed to appear."—Ailly Sloper.

Gen. Kuroki.

The Japanese officers visiting here last week gave a good and touching illustration of their national characteristics of reverence.

On Saturday the Mayflower, by official invitation, took the Japanese officers to Mount Vernon. In passing Mount Vernon the band played the "Star Spangled Banner," and the Japanese stood with bared heads and in silence. On reaching the tomb of Washington, Gen. Kuroki and Vice-Admiral Ijima, accompanied by their aids (who were carrying two beautiful wreaths of flowers) were not content with gazing through the iron grills of the tomb. The mausoleum was opened by Mr. Dodge's orders, and the two great officers, unaccompanied, each taking a wreath, entered the resting place of our great dead.

What followed was described by our officers as being of the most impressive character of anything they had ever seen. They said: "Kuroki and the admiral advanced pace by pace together. They held the wreaths as if about to offer them upon an altar, bowed reverently, and with one movement laid their tribute on the sarcophagus. Folding their hands, they bent their heads in apparent prayer for a few moments. Without turning they stepped back, and with band on heart bowed profoundly; then another step and another similar bow, and so reached the gate and passed out."

One officer said he was cold with awe.

These great Japanese were entirely unconscious that these movements were anything out of the usual custom here any more than in their own land. They paid their homage to a

great spirit, whose simplicity and naturalness was akin to their own country's absence of self-consciousness, and believing, as we are told they do, that Washington knew of their veneration.

Outside the tomb there was stillness and respect, and doubtless a feeling of regret that our nation does not let us show such tender respect to memories we cherish profoundly.

A woman said she was told by another woman that Kuroki "was the biggest man she had ever seen."

He said: "Why, he is certainly not more than five feet four inches tall, but he has a face of fate incarnate, and I'd not be afraid to go to the gates of hell if he commanded the expedition."—From a page made in a diary.

Paducah	13.3	0.4	rise

Heavy rains scattered over a wide area may be expected to send the rivers up. The river here rose 4 in the last 24 hours under the stimulation of .36 inches of rainfall. On June 1 last year the stage was 6.7 and rising. Business at the river today was rushing.

Railroad boys would be humbled to see the sight at the Paducah dry docks today. An engine, their beloved steel horse, to be sent to the river, is being transported by river from Shawneetown to Brookport. We wish President Roosevelt could see this triumph of river traffic. The Commercial club should have towed innocently past Vice-President Fairbanks on his Tennessee river trip. The sight of the railroads being carried easily on the breast of the river would be impressive. And the engine sitting on a roomy barge shows off all the more advantageously for the river.

In sending the Inverness to the Ohio river after ties, the Ayer-Lord Tie company is opening up a new field for the local harbor. Ties always have been gotten out of the Ohio river but they were shipped through Golconda and other points by rail. They will now be brought through Paducah, that is all that can not be shipped by rail, and the output in the future will be too great for the railroads. The Inverness will leave in a day or two.

The Enos Taylor arrived yesterday afternoon from Shawneetown with the derlek boat Morris F. Burns and two barges. The derlek boat and a barge are now out on the docks for repairs. The Enos Taylor will go to Brookport Monday with the railroad engine.

The Georgia Lee arrived at noon today on fine time from Cincinnati, and left in a few hours for Memphis. Only one trip will be made in the Cumberland river trade next week.

## Another Step in the Onward March to Superiority

We Aim to Make This Store  
the Pride of Paducah People

*WE are constantly adding new goods, new facilities and improvements of all descriptions. Our aim is to make this store a place you will be proud to bring your friends; a place where you can get whatever you desire in Dry Goods, Ready-to-Wear, Carpets and Draperies. No matter how large or how limited your income. We cater to the masses. We take pleasure in announcing that we have added to our Muslin Underwear Department the famous*

## La Grecque Tailored Underwear

This Underwear has many distinctive features. It combines usefulness, smoothness of fit, beauty of design and workmanship. Fits so smoothly over the figure that it materially lessens outer dress measurements and accentuates the waistline.

LA GRECQUE TAILORED UNDERWEAR is made in graduated sizes so each wearer gets just the garment to fit her individual figure.

Every seam doubled and sewed flat, making it soft, pliable, easily laundered and unstretchable.

There are no bands and gathering strings to increase the waist measure---no bunching or wrinkling at waistline and hips to spoil the fit of a gown or add uncomfortable warmth. Every line is carefully shaped and well defined, giving the wearer that shapely chic style and dressy comfort dear to every woman's heart. Their extraordinary durability is such that they will outwear ordinary garments.

The cuts are of actual photographs, showing exactly what the garments look like and how they will fit your figure, whether stout or thin.

It costs very little more than other underwear and is cheaper than you can make it yourself.

The John Hopkins was the packet in the Evansville trade today and the Joe Fowler will arrive Sunday to lay over until Monday.

Early this morning the wharfbait was heavily loaded with freight for the Kentucky and wagons ran all day.

to that packet. The Kentucky will leave this evening at 6 o'clock for the Tennessee river.

The Jim Duffy, Jr., went to the Cumberland river this morning after ties for the Ayer-Lord Tie company.

Business was good for the Dick Fowler in the Calo trade today.

The Joe Wheeler will arrive from Chattanooga Sunday night and lay over until Tuesday noon before returning.

The City of Satellite will arrive from St. Louis Sunday or Monday morning on her way to the Tennessee river.

Official Forecasts.  
The Ohio at Evansville and Mt.

Vernon will continue rising during the next 36 hours. At Paducah and Calo no material change during the next 24 hours.

The Tennessee from Florence to below Johnsonville will rise during the next 24 hours.

The Mississippi from below St. Louis to slightly above Cairo, will rise during the next 24 hours.

The Wabash at Mt. Carmel will probably fall during the next 24 hours.
